

# Echocardiography Report

**Patient Name:** TIA

**Owner:** ALAA

**Species/Breed:** Dog / Husky

**Age:** 4 years

## Echocardiographic Measurements:

LA/Ao ratio: 1.3 (Normal)

Mitral valve: Normal

E/A ratio: 1.4 (Normal)

Fractional Shortening (FS%): 41% (Normal)

Tricuspid valve: Normal

TAPSE: 11 mm (Normal)

MAPSE: 8 mm (Normal)

Aortic valve: Normal

Pulmonary valve: Normal

## Conclusion:

Echocardiographic examination shows normal chamber dimensions and function. No evidence of valvular abnormalities or myocardial disease. Overall cardiac function is within normal limits.
